*Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

iUniverse. Paperback. Condition: New. 236 pages. Dimensions: 9.1in. x 6.1in. x 0.7in. The Omni Chronicles blend scientific proof with legendary literature to bring you the best the New Millennium can offer about the unexplained mysteries that have baffled the world since time began. Does it surprise you to find that the Face on Mars is tied in with our own sphinx? Perhaps the same people built them both, but who were these archaic space travelers and where are they now. Deep inside it seems like the answer is there, just waiting to be discovered. Perhaps, all you lack is the key and then everything will fall into place naturally. Did you know that the pyramids are an exact replica of the constellation Orion as it appeared on the horizon in Giza in 10,500 B.C. (before mankind was born)? Just the sight of the pyramids invokes a strange sense of knowing that there is something missing in our ancient texts or is it missing. Maybe we just don't know where to look. Find out now everything you have questions about but don't know who to ask in the quick-paced, fiction account of what really happened sixty-five million years ago and yet is still affecting us right now.
