Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1869 edition. Excerpt: .MATHEWS, New York City--Als0 exhibits an Apparatus for Manufacturing Soda, Mineral and ZERated Waters, with a Glass Fountain for the same--Schultz Walker, inventors. This is a most complete and perfect apparatus for making all the waters, and is of the capacity of three hundred gallons per day. The conducting tubes in all the apparatus manufactured by Mr. Mathews, are from pure Banca tin, and, we are informed, have been submitted to a test of three thousand pounds to the square inch without showing any signs of swelling or bursting. The design of the apparatus is such as to unite convenience with the greatest strength of which tpe materials are capable. The heads of the acid chamber, gas washers and necks, have cap flanges, a peculiarity which adds greatly to their strength. The generator, gas washer and reservoirs are constructed of the strongest iron and protected...
