Where appropriate, these agreements may be used on a broader range of enforcement cases; particularly where an employer has or may have a significant pattern of non-compliance with the OSH Act across multiple locations; Abatement references were updated to include the Abatement Verification regulation, 29 CFR 1903.19; The CSA monitoring terminology (baseline, periodic, and follow-up monitoring) has been changed to align the procedures with the Abatement Verification regulation and OSHA procedures for monitoring and follow-up inspections; CSA monitoring will be tailored to the complexity of the agreement; Clarified National and Regional CSA procedures; Included a tool to evaluate the value of a CSA to the Agency; Mandated that each agreement include a termination date and/or sunset clause, which is not to extend beyond two years from the final order date.
