Createspace Independent Publishing Platform, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Artificial Intelligence, deep learning, machine learning - whatever you re doing if you don t understand it - learn it. Because otherwise you re going to be a dinosaur within 3 years. - Mark Cuban The development of full artificial intelligence could spell the end of the human race. It would take off on its own, and re-design itself at an ever increasing rate. Humans, who are limited by slow biological evolution, couldn t compete, and would be superseded. - Stephen Hawking Discover and learn all about the machine learning in this book. You will understand and learn more about machine learning with the proper frameworks to solve problems. Have you seen or read about the automated driverless cars cruising the road and highways? Don t you want to learn more about the framework that institutions and companies are using for machine learning? Wouldn t you want to find out the types of real life problems that are solved by various machine learning models? Machine learning usage has been looming around us yet most of us are still uninformed about its applications and how it can improve their daily life. Machine learning is about taking the data that anyone might have - whether it s a sports franchise or an industrial manufacturer - and using algorithms to actually reason over the data and to predict outcomes that a businessperson can use to make better decisions. - Christopher Matthews But much of what we do with machine learning happens beneath the surface. Machine learning drives our algorithms for demand forecasting, product search ranking, product and deals recommendations, merchandising placements, fraud detection, translations, and much more. Though less visible, much of the impact...
