THE ADHD FRAUD: HOW PSYCHIATRY MAKES PATIENTS OF NORMAL CHILDREN (PAPERBACK)**DOWNLOAD**

Trafford Publishing, Canada, 2006. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Fred A. Baughman Jr., MD is an adult and child neurologist who has made disease (brain tumor, multiple sclerosis, etc.) vs. no disease (emotional, psychiatric) diagnoses daily and has discovered and described real diseases. Herein he describes the difference between psychiatry/psychology, on the one hand, and neurology and all organic medicine, on the other, and why ADHD and all of psychiatry's chemical imbalances are not diseases at all--but fraud. Referring to psychiatry, he states: They made a list of the most common symptoms of emotional discomfort of children and in a stroke that could not be more devoid of science or Hippocratic motive--termed them diseases / chemical imbalances each needing/requiring a chemical balancer - a pill. In 1970, when hyperactivity / minimal brain damage (forerunners of ADHD) was first represented to Congress to be a brain disease, only 150,000 had it. Today, not by science or truth, but the big lie --saying it is a disease often enough, 6 million have it! Nor is ADHD the only chemical imbalance. They give us conduct disorder (CD), oppositional-defiant disorder (ODD), major depressive disorder (MDD), OCD, PTSD, GAD, SAD, etc., a total of 374 psychiatric disorders in the Diagnostic and Statistical Manual (DSM-IV-TR) of the American Psychiatric Association (APA), said to be chemical imbalances needing chemical balancers --pills! In 2003 Congressional hearings it was said that 17 of the nation's school children, 8.8 million, were labeled and drugged by psychiatry. Today it is 20 ; one in five; over 10 million! How better to sew the seeds of our own destruction? As if this were not enough, the President's New Freedom Commission on Mental Health is set to foist compulsory, government-mandated, mental health screening...
