

Dividends: Pros, Cons, Sources and Strategies (Paperback)

Filesize: 4.48 MB

Reviews

Certainly, this is actually the very best job by any author. it was writtern very flawlessly and beneficial. I found out this publication from my dad and i recommended this ebook to discover.

(Magali Robel)

DIVIDENDS: PROS, CONS, SOURCES AND STRATEGIES (PAPERBACK)

Createspace, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Aren t you tired of all the talking heads on TV screaming for you to buy! buy! buy! and sell! sell! sell! the same stocks day in and day out? Aren t you tired of all the self-important commentators telling you that it s a trader s market ? You should be. They ve been screaming the same thing for decades, all to their audience s detriment. It s common sense, really. If your retirement hinges on stock prices going up, you are not investing. You re hoping. You re gambling. You might as well add baseball cards and comic books to your nest egg. Or go to Vegas. At least there the odds are pure and you ll have a good time losing your money. Companies have no more control over their share prices than you do. Some years they are up, some years they are down, but only rarely, if ever, do they reflect the underlying business. If you re relying on capital gains to fund your retirement and there s a stock market crash, that means you can t retire--even if the underlying businesses are as profitable as ever. How crazy is that? There has to be a better way than playing this rigged game. There is: dividends and other income generating investments. Although companies have zero control over their stock prices, they have almost complete control over how much of their earnings they pay their owners. That s what you are when you invest in a business: an owner. And there s no point in owning a business if it doesn t pay you. Study after study, over numerous time periods, shows that buying and holding dividend paying...
