Undoubtedly, this is the greatest job by any author. It is actually filled with wisdom and knowledge I am quickly could get a pleasure of reading a written book. (Kade Ankunding)

NIBRIU: ROGUE PLANET (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Dr. Randall Jenkins, astronomer at Stanford, discovers that NASA has concealed pictures of a rogue planet taken in 1983, kept from the public by reason of plausible deniability. Since he has worked on projects with President Winston Darcy, he tells him about the pictures. He is immediately dispatched to the New Zealand where a NASA astronomer had plotted the orbit of the planet, took pictures through a camera set up on New Zealand, gave the package to NASA. The package disappeared, and the astronomer died of cancer. Ayoung astronomer living on the island tells Jenkins he has a copy of the package. When Jenkins asks for possession of the file, he warns him that he himself was shot without disclosing his possession of the file. After receiving the file Randall is accosted by a man who reluctantly gives him the name of the inside man in NASA. When the President Darcy sees the pictures, he immediately calls for the appearance of the NASA. Greenbrier finds the original copy and presents it to the President. Greenbrier explains that the planet is in the solar system and its gravitational force is already causing hurricanes and floods, including tsunamis. When Greenbrier is found floating in the Yukon River, the President calls on Dr. Jenkins to join a team to uncover the truth. Immediate reports claim that the Yellowstone caldaria is threatening to erupt, already the Rim of Fire is activated and dormant as well as new volcanoes are erupting. Jenkins explains that an eruption of the Yellowstone caldaria would spew...
