Excerpt from Traite de Technique Mineralogique Et Petrographique, Vol. 1: Les Methodes Optiques Le but que nous avons poursuivi en ecrivant un traite de technique mineralogique et petrographique, est de donner un apercu aussi complet que possible des procedes modernes qui sont en usage pour la de termination des mineraux et des roches. Comme ces procedes sont empruntes a la physique et a la chimie, il nous a paru logique de diviser notre ouvrage en deux parties. La premiere, qui fait l objet de ce volume, est exclusivement devolue aux methodes optiques; la seconde, qui contiendra l expose des methodes chimiques qualitatives et quantitatives, ainsi que l interpretation des analyses par les for mules et les graphiques, paraitra a une date ulterieure.
