Gale Ecco, Print Editions, United States, 2010. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. This collection reveals the history of English common law and Empire law in a vastly changing world of British expansion. Dominating the legal field is the Commentaries of the Law of England by Sir William Blackstone, which first appeared in 1765. Reference works such as almanacs and catalogues continue to educate us by revealing the day-to-day workings of society. +++The below data was compiled from various identification fields in the bibliographic record of this title. This data is provided as an additional tool in helping to insure edition identification: +++British Library W025479 The almanacs published by Thomas for 1779-1795 are attributed by Evans to Ezra Gleason, but most appear to be the work of other identifiable calculators. The present one may be the work of Nathan Daboll. A large proportion of the astronomical notes on the calendar pages of A New-England almanack and gentleman s and lady s diary of 1783 by Edmund Freebetter [pseud.: i.e., Daboll] (New London) are duplicated here, usually opposite the same calendar date and often with the same calculations, especially those on the movements of the 7 stars or Pleiades. Elsewhere, most of Daboll s calculations differ, being for New London. Though the preface...
