Figs.5 and 6. The Indicator. Fig.7. The Indicator Spring. Note.- The purpose of the instrument is the same as a recording steam gauge, with this difference, that it records the pressure at each instant of the engine stroke, and this pressure is usually a variable one in different parts of the stroke. This is its object, simply to put upon paper the steam pressure pushing the piston at each point in the stroke, and at the same time to put on paper what pressure is opposing the piston at each portion of the piston stroke. That is all it does. The instrument may be considered as a steam gauge with a spiral spring to measure the pressure, and a pencil to record it.
