Instructional Model for Power Surge

By Dalaguit, Angelo / Dalaguit, Mary Ann

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | This is a quasi-experimental method of research aimed to create voltage time delay device for protection of electrical appliances from power spike due to brownouts at affordable cost. The mean temperature for the three treatments in all replicate was normal base on the maximum temperature of the magnetic contactor which is 1000C. The device was used for electronics instruction where the performance of the students was improved based on the pretest and post test scores. The reliability of the test based on the post test result was 0.75 interpreted as good which means that the assessment instrument is good; however, there are probably few items which could be improved. Testing the hypothesis of no significant correlation between the pretest and the post test at 0.01 and 0.05 levels of significance, researcher failed to provide sufficient evidence to accept the null hypothesis. It is established that the voltage time delay device is valuable for electronics instruction. It is recommended to follow the procedure as indicated in the proposed instructional guide for electronics technology that can be used for commercialization. | Format: Paperback | Language/Sprache: english | 120 gr | 220x150x4 mm | 68...

Reviews

A top quality ebook and the typeface used was interesting to learn. This can be for all who statte that there had not been a well worth reading through. I am just pleased to tell you that this is basically the very best ebook i actually have go through in my individual life and can be he finest book for at any time.

-- Mr. Carol Bergnaum IV

This publication will not be straightforward to begin on studying but quite fun to see. It really is basic but shocks in the fifty percent of the ebook. I realized this ebook from my dad and i advised this pdf to learn.

-- Bernadine Powlowski
