iUniverse, United States, 2009. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.In the first essay in *Garden Musings*, this gardening writer states, The evidence keeps racking up that I, the Hoosier-born offspring of several generations of farmers, chose through ignorance to garden in a delightful area combining the world's worst soil and an exasperating climate, all augmented by various man-made and natural catastrophes such as tornadoes, droughts, prairie fires, hail, drenching rains, ice-storms, late freezes, boiling summers, and seventy mile per hour winds. Gardening, with all the pressures of struggle between the environment, wild animals, and the gardener, and particularly in the harsh Kansas weather, is not for the faint-hearted as demonstrated by the many essays in the book including *Sweet (Corn) Pain*, *Weather-Weary*, *Midden Misery*, and *Soil Sorrows*. While the essays are full of useful personal observations about gardening style, plant information, and garden practices, the author also turns his wry eye on tumbling a number of gardening tenets and institutions as he turns his attentions on composting, lawn maintenance, and landscape designers who work primarily in junipers, Japanese barberry and *Stella de Oro* daylilies. The timing and content of programming of the Home and Garden Television Network and the lack of availability of G-rated gardening statues are other topics that don't escape this garden curmudgeon. Gardeners searching for practical advice or simply for winter-reading pleasure will all find fulfillment within these pages.
