Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from An Introductory Study of Ethics The study of conduct which is here offered to students and teachers of philosophy was begun with the intention of furnishing simply a plain statement of the existing ethical situation, by which I mean an analysis of the moral problem and a definition of the several types of ethical theory. But it was found impossible to make a plain state ment without adopting a point of view for the definition of the problem and the theories in question. And in the search for a satisfactory point of view I have been led to a more or less independent reconstruction of the situation as a whole. In a study like ethics, where nothing can be uttered which has not been in a measure foreshadowed, it is difficult to know how far one has succeeded in really contributing to the discussion; yet I hope that the following pages may be found not only useful to students beginning the study but of interest to those already familiar with its problems.
