Createspace Independent Publishing Platform, 2018. Paperback. Condition: New. Earl Koenig (illustrator). Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.What will you do if the supply chain goes down? What is your plan if the infrastructure fails? How will you survive if the delicate fabric of civilized society begins to tear apart? Stockpiling food, water, and supplies is only a small piece of the puzzle. From the most basic survival needs to the state of mind needed to make surviving seem worthwhile, you cannot do it alone. When it comes to living after the fall of society, mason jars full of potato flakes just aren't going to cut it. Life is a community effort, and living after a societal collapse is no exception. In a scenario where the lights may never come back on, like-minded folks will need to band together and establish their own autonomous and independent survivalist colonies. Planning a post-SHTF community is no small task. The survival of your group depends on the careful consideration and preparation of every foreseeable concern, including food, security, sanitation, and everything in-between. This book aims to serve as a road map for planning the creation and operation of your survival community.
