Understanding Global Crises: An Emerging Paradigm (Hardback)

By Assaf Razin

MIT Press Ltd, United States, 2015. Hardback. Condition: New. Language: English . Brand New Book. A historical and theoretical investigation of the common storylines of recent financial crises. Financial crises have some common storylines, among them bursting asset bubbles, bank failures, sharp tightening of credit, and downturn in trade. They are also different from one another. Some start with sudden reversal of international capital flows, others with domestic credit implosions. A challenge to economic research is to integrate common as well as disparate threads into a coherent analytical framework that is at the same time empirically testable. In Understanding Global Crises, Assaf Razin offers a review of an emerging paradigm that is consistent with the key features of recent global financial crises. This paradigm presents in a transparent way basic analytical elements of the theories of financial and monetary crises and how these elements fit together in macroeconomic analysis of global crises. Razin surveys the credit implosion that led to a severe banking crisis in Japan in the 1990s, the Asian financial crisis that began in 1997, the global meltdown of 2008, and the Euro-zone crisis. He reviews the analytics of financial fragilities, credit frictions, currency crises, and balance of payments...

Reviews

Very useful to all of category of people. I actually have read through and that i am sure that i will likely to go through once more again in the foreseeable future. I realized this book from my i and dad advised this publication to find out.

-- Alta Kirlin

This is the very best publication i have got read until now. It is definitely simplified but shocks within the fifty percent of the pdf. You may like how the article writer create this pdf.
