By -

McFarland Co Inc, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. This collection of new essays focuses on The CW network s hit television series Arrow - based on DC Comic s Green Arrow - and its spin-offs The Flash, DC s Legends of Tomorrow and Supergirl. Comic book adaptations have been big business for film studios since Superman (1978) and in recent years have dominated at the box office - five of the 11 highest grossing films of 2016 were adapted from comics. Superheroes have battled across the small screen for considerably longer, beginning with The Adventures of Superman (1952-1958), though with mixed success. The contributors explore the reasons behind Arrow s success, the series representation of bodies, its portrayal of women, its shifting political ideologies, and audience reception and influence on storylines.
