This ebook will never be effortless to get started on studying but extremely fun to read through. It is actually written in easy phrases and never difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

Liberty Fund Inc. Paperback. Book Condition: new. BRAND NEW, Considerations on the Principal Events of the French Revolution, G. Stael, Aurelian Craiutu, Few individuals have left as deep an influence on their time as did Germaine de Stael, one of the greatest intellectuals of her age, whose works have influenced entire cultures, eras, and disciplines. Soon after its publication, posthumously in 1818, "Considerations on the Principal Events of the French Revolution" became a classic of liberal thinking, making a deeply original contribution to an ongoing political and historical debate in early nineteenth-century France and Europe. As a representative of classical liberal opinion, de Staels voice, which Napoleon Bonaparte tried to silence by censorship and banishment, is a unique and important contribution to revolutionary historiography. Considerations is considered de Stael's magnum opus and sheds renewed light on the familiar figures and events of the Revolution, among them, the financier and statesman Jacques Necker, her father. Editor Aurelian Craiutu states that Considerations explores "the prerequisites of liberty, constitutionalism and rule of law, the necessary limits on power, the relation between social order and political order, the dependence of liberty on morality and religion, and the question of the institutional foundations of a free regime." Madame de Stael's unique perspective combined a sharp intellect with an elegant style that illustrates the French tradition at its best. Considerations was rightly hailed as a genuine hymn to freedom based on a perceptive understanding of what makes freedom possible and on a subtle analysis of the social, historical, and cultural context within which political rights and political obligation exist. Madame de Stael conceived of this volume in six parts: parts 1 through 4 reflect on the history of France, the state of public opinion in France at the Accession of Louis XVI, and Neckers plans of...
