Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Studies on Some Protozoan Parasites of Fishes of Illinois: With Eight Plates This paper is divided into two parts. The first part deals with a preliminary Observation made by the author from August 12 to September 1930, under the auspices of the Illinois State Natural History Survey, on some parasitic Protozoa of fishes inhabiting the main water systems of the state. The second part gives the descriptions of several new species and additional information on a few already known species of Myxosporidia Observed during this survey and also in the fishes which have been collected by Dr. D. H. Thompson, Zoologist of the Survey, from various parts of the state in connection with his work over a period of several years. The author is indebted to Dr. Thompson for these materials placed at his disposal and for assistance during the month of field study. Thanks are also due to Mr. F. D. Hunt of the Survey, who was instrumental in the collection of material on the Fox River. The specimens are deposited in the collections of the Illinois State Natural History Survey at Urbana.
