TOWARDS SOLVING THE SOCIAL SCIENCE CHALLENGES WITH COMPUTING METHODS

Peter Gmbh Lang Mai 2015, 2015. Taschenbuch. Condition: Neu. Neuware - Computational Social Science is an interdisciplinary field where social science questions are investigated with modern computational tools. The book provides insight into different social problems and calls for new practices offered by computational social science, discussing methods for efficient management of complex engineering design, cybersecurity and the prediction of malicious threads of information systems. It is also a study of awareness of privacy in social networks, prosodic modelling for...
