Reviews

It is an incredible ebook that we actually have ever study. This is certainly for all those who statte that there had not been a worthy of looking at. I am just pleased to inform you that this is the very best publication i have got go through during my individual daily life and can be he best ebook for possibly.
(Clarabelle Marvin)

GALACTIC TRAVEL AT WARP SPEED IN IMAGINARY TIME

Xlibris Corporation. Paperback. Book Condition: New. Paperback. 168 pages. Dimensions: 9.0in. x 6.0in. x 0.4in. Knowing where we came from, will help us to understand what the future holds for astronauts, and the rest of mankind that will need an alternative fuel. The same fuel that is proposed in the construction of a spaceship in this book can also be used to power cars, homes, and cities. Technical theories based upon Einsteins equation, a decoding of the Bible, and astronomical properties of our galaxy, explain how other properties for time exist. They are expressed as imaginary time which is equivalent to the 4th dimension, sector time which is related to dark matter, and time-line that explains exactly when the Great Flood occurred during the time of Noah. The passages that were documented in the book of Moses called Genesis , provide mankind with the answers that he will need to pioneer his travels to other solar systems. The Biblical time-line is significant because it describes the events of the prehistoric past, and it defines a need to modify Einstein s famous equation or $E=mc^2$. Unique concepts are required for mankind to see beyond new barriers - barriers that cross the void between solar systems and galaxies. Knowing what to expect is one thing, but getting there is another - a task that may be easier with the concepts presented in this book. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
