REMOTE SENSING OF FOREST ENVIRONMENTS

Condition: New. Publisher/Verlag: Springer, Berlin | Concepts and Case Studies | Remote Sensing of Forest Environments: Concepts and Case Studies is an edited volume intended to provide readers with a state-of-the-art synopsis of the current methods and applied applications employed in remote sensing the world's forests. The contributing authors have sought to illustrate and deepen our understanding of remote sensing of forests, providing new insights and indicating opportunities that are created when forests and forest practices are considered in concert...
