Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Roshan Cipriani is an author and an autodidact whose education was initiated by unexplained experiences with quantum physics in daily living. In her book The New Dimensional Reality- Experiences Of Alternate Dimensions Of Existence -the 3rd book in the series, the author was prompted to research and publish her growing findings on the expanding Mandela Effect phenomenon. As she found herself overwhelmed with evidence and searching for multiple methods to test present reality, she discovered thousands of other people asking the same unanswered questions. However with no means to test these scientific truths and as a witness to the daily replacement of previously known facts and geographical data the author knew there just had to be more. This book is the third most current follow up to the research and events of the first two volumes. If you are experiencing reality changes you are not alone. This book continues the documentation of the reports of thousands of people like yourself, and explores possible causes from the LHC at CERN to dimensional teleportation from the activities of the D WAVE quantum computers in use all over the world. If you have heard of The Mandela Effect, or know of someone who is experiencing it and just want to understand what it is all about this book will help you understand. The idea that this may be an even bigger phenomenon affecting people the world over makes this book even more interesting.
