

Space Acquisitions: Dod Faces Challenges in Fully Realizing Benefits of Satellite Acquisition Improvements: Testimony Before the Subcommittee on Strategic Forces, Committee on Armed Services, U.S. Senate (Paperback)

Filesize: 1.33 MB

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Ally Reichel)

SPACE ACQUISITIONS: DOD FACES CHALLENGES IN FULLY REALIZING BENEFITS OF SATELLITE ACQUISITION IMPROVEMENTS: TESTIMONY BEFORE THE SUBCOMMITTEE ON STRATEGIC FORCES, COMMITTEE ON ARMED SERVICES, U.S. SENATE (PAPERBACK)

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Each year, the DOD spends billions on large space acquisition programs, which have in the past experienced cost and schedule overruns and increased technical risk. At present, though, the worst of these problems may be over, and programs long troubled are finally being launched. Challenges persist, but they are less significant than they were. With today's fiscal constraints, however, DOD must find ways to keep its new major space acquisitions on track, as operating in space is expensive and DOD is still replenishing legacy programs like missile warning, protected communications, and environmental monitoring. Significant barriers exist to ensuring such investments are optimized. To address the progress DOD has made this year, this testimony will focus on (1) the current status of space system acquisitions; (2) results of GAO's space-related reviews this past year; (3) actions taken to address DOD space acquisition problems; and (4) remaining challenges that stand in the way of DOD fully realizing the benefits of satellite acquisition improvements. This testimony is based on previously issued GAO products as well as analysis of DOD funding estimates. GAO does not make recommendations in this testimony. However, in previous reports GAO has generally recommended that DOD adopt best practices for developing space systems such as separating technology development from product.
