Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Jolene s lived for twenty-one years without ever having ridden a bike or swung on a swing. She s never had a first date, gone to school or a prom. Scientists working for the military created her. She s one of Military Intelligence s most valuable assets, but one of those scientists believes she s a monster, too dangerous to exist. He ll do anything to fix his mistake and terminate the experiment, Jolene. When he nearly succeeds in Afghanistan, Jolene is forced to break all the rules and escape. Running in a world she s only experienced in training and on missions, hunted by the military and the CIA, she ll have to embrace the monster she was created to be if she is to survive. Jolene, You re Not a Monster is a thrilling, action packed, emotional ride as a creation tries to be a good person. What people are saying: Holey Moley! What a story! The only thing I didn t like about it was that it wasn t written by me! I am excited this author integrated science fiction and humanity into a great story. If you re a Steven King fan you ll love this story! Part adventure, part horror, part romance, all riveting -- this creepy but masterful novel is full of wicked twists and turns.
