

## The Alignment Performance Link in Purchasing and Supply Management

Filesize: 7.54 MB

### **Reviews**

*A high quality pdf as well as the typeface applied was exciting to see. It really is written in simple words and phrases rather than difficult to understand. You will not really feel monotony at any time of your time (that's what catalogs are for relating to in the event you question me).*

Betriebswirt.-Vlg Gabler Mai 2008, 2008. Taschenbuch. Condition: Neu. Neuware - Purchasing and supply management (PSM) has developed into a discipline of major strategic importance for effectively competing in today's global marketplace. To leverage PSM' strategic value creation potential, the decisions and activities of the purchasing function must be aligned with the firm's overall strategic orientation. Despite general agreement on this matter, research and practice lack knowledge on how exactly such an alignment can be achieved and what performance implications it has. Christian Baier empirically investigates the alignment performance link in PSM. Drawing on the market-based view, resource-based view, principal agent theory, and contingency theory, the author suggests that the relative fit among a firm's business strategy, its purchasing competitive priorities, and its purchasing practices is key to achieving superior business performance. Results from profile deviation and hierarchical regression analysis of data collected globally from 141 chief purchasing officers in firms with revenues greater than USD 3 billions present strong empirical support for this hypothesis. Baier's findings provide clear guidance to practitioners on how to design their purchasing strategies and practicesto achieve maximum alignment and thus effectively contribute to the firm's competitive advantage. 231 pp. Englisch.
