Reviews

It is one of the best books. Indeed, it really is a play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

Date :2011-4-1. Ever since humans created their own civilization. especially since the rise of industrial civilization. after four hundred of the recent rapid development of science and human use of their grasp weapon deeply in nature's own brand of laid. Accelerate the development. plundered. enjoying the fruits of civilization. looks like we better day by day. multiplied by the Spring Subway. in essence. this beautiful planet is pain and moaning. How many brilliant human civilization has bred the mother is now no longer grace; how many have such boundless expanse of blue like the rolling forest naught; how many people have been returning to the blue sky. looking at the sky. they are seen almost daily lead-gray; many species has ever been and our farewell. the extinction effect as slumped fallen dominoes. Development of anything has a critical value. the pressure on the Earth has reached a critical point of whether the Earth will always be our home it is always physical and mental sustenance how far and near three decades. there have been an ecological disaster intensified. this is the biological invasion. Realistically speaking. species distribution and expansion in human history before the appearance is part of the Earth. this is not the original sin of mankind. But recently. three to four hundred years. because of technology. industry. commerce. travel and other large-scale to start. so increasing the size of the exchange species; and human economic interests in order to meet their own needs and pleasant to drink willing to eat to fat diet For the big shift of species. even if worse. led to the ecosystem and biodiversity a whine. In...
