

Contributions to Biology (Volume 22-30)

Filesize: 2.33 MB

Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.
(Mitchell Kuhn III)

FROM The Hopkins Seaside Laboratory OF THE LELAND STANFORD JR. UNIVERSITY Studies on Ciliate Infusoria BY N. M. Stevkns Reprinted from the Proceedings of the California Academy of Sciences 3d Ser. Zoology, Vol. III Stanford University, California PREFATORY NOTE. This memoir is the twenty-sixth of a series designed to illustrate investigations and explorations connected with the Hopkins Seaside Laboratory, an adjunct of the biological laboratories of the Leland Stanford Junior University. These investigations have been carried on by means of the assistance given by Timothy Hopkins, Esq. , of Menlo Park, California. This memoir appears in the publications of the California Academy of Sciences, the present edition being a reprint. Oliver P. Jenkins, Charles H. Gilbert, Directors Hopkins Laboratory. Date of publication, May 4, 1901. STUDIES ON CILIATE INFUSORIA. 1 BY N. M. STEVENS. CONTENTS. Plates I-VI. I. LICnOPHORA MACFARLANDI, SP. NOV 3 II. BOVERIA SUBCYLINDRICA, GEN. ET SP. NOV 20 These forms were discovered by Dr. F. M. McFarland in the respiratory tree of *Holothuria californica* Stimp. , at Pacific Grove, California, in the summer of 1893. In June, 1898, the working out of their structure and general biology was assigned to the author of this paper as a problem in cytology. The number of new and interesting points which came out in the course of the study seems to warrant the present publication. The work on which the paper is based was done in the Hopkins Seaside Laboratory at Pacific Grove, and in the...
