BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 36 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. GAO reviewed certain operations at the Bozeman, Montana, Post Office to determine the impact on and changes in mail service resulting from the implementation of area mail processing (AMP) and to assess employee morale. GAO found that specific data on the quality of Bozemans mail service prior to the implementation of AMP does not exist and that performance statistics maintained by the Postal Service are too general to reflect the current quality of Bozemans mail service. Consequently, GAO could not determine whether the quality of Bozemans mail service has changed as a result of AMP implementation. Two principle problems exist in the mail service. Workers said that managers were stringently enforcing rules that had been neglected in the past and took disciplinary actions when rules were not followed. They saw no need for such strict enforcement, because they felt that the Bozeman Post Office was one of the most efficient in the State. They were concerned that the rules were not applied fairly and uniformly to all employees. Morale was adversely affected by lack of notice of the implementation of AMP. Morale is beginning to improve and many postal...
