ELSEVIER SCIENCE TECHNOLOGY, United States, 2002. Paperback. Condition: New. New.. Language: English . Brand New Book. Advanced SQL:1999 - Understanding Object-Relational and Other Advanced Features is the practitioner s handbook to the standard s advanced features. It is not a representation of the standard, but rather an authoritative, in-depth guide to its practical application. Like its companion, SQL:1999 - Understanding Relational Language Components, which explained the standard s basic features, this book will show you how to make your applications both effective and standard-compliant. This handy reference has a modular format so you can explore specific topics with ease. It is equally useful to those upgrading from earlier versions of SQL and those with no previous experience. Written by the standard s distinguished editor, Advanced SQL:1999 will complete your knowledge and support your skills like no other book can.
