## The Calcutta Journal of Medicine, Vol. 25: A Monthly Record of the Medical and Auxiliary Sciences; February, 1906 (Classic Reprint) (Paperback)

By Unknown Author

FBC LTD, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from The Calcutta Journal of Medicine, Vol. 25: A Monthly Record of the Medical and Auxiliary Sciences; February, 1906 The deposit of poison in the ovules of reptiles during the process of fecundation is a new discovery. No other organ except the ovules seems to be the repository of the poison. This is a peculiar phenomenon amongst the reptiles. The common notion prevalent in India. Is that the young snakes just after their birth are more poisonous than their adults. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. ### Reviews

*A top quality ebook and the typeface used was interesting to learn. This can be for all who state that there had not been a well worth reading through. I am just pleased to tell you that this is basically the very best ebook i actually have go through in my individual life and can be the finest book for at any time.*

-- Mr. Carol Bergnaum IV

*This publication will not be straightforward to begin on studying but quite fun to see. It really is basic but shocks in the fifty percent of the ebook. I realized this ebook from my dad and i advised this pdf to learn.*

-- Bernadine Powłowski
