

Stoned A Doctor

By David Casarett M. D.

Current Hardcover. Hardcover. Condition: New. 288 pages. A physicians exploration of the odd science of marijuana, and the industry thats sprung up around it. If youre diagnosed with a serious illness today, theres one thing you can look forward to: the ability to get stoned on legal, pharmaceutical-grade marijuana. The past decade has seen a dramatic increase in medical marijuana use, abetted by a new industry of farmers, distributors, manufacturers, and clinics that have created a need. But does pot really offer the medical benefits that its proponents promise Or does it just make people feel good Dr. David Casarett, a highly respected researcher and professor of medicine, sets out to find answers firsthand. He visits dispensaries in California and Colorado; smears marijuana paste on his legs while trekking through Nepal; samples pot wine; learns how vaporizers work; and tries the purest kind of hash, known as shatter. The result is a light-hearted and much-needed medical practitioners perspective on what marijuana is really good for, and whether the dangers outweigh the benefits.
