Reviews

A really wonderful book with lucid and perfect reasons. This can be for all who statte there was not a worth reading through. You are going to like how the author write this book.

(Dr. Grady Jacobi DDS)

TWO-WAY RADIO (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Two-Way Radio This book describes the mechanics and applications of two-way radio for all forms of fixed, mobile, or portable communications. It is presented in non-mathematical form and in simple language fully understandable to persons using or intending to use such facilities. It is being published simultaneously with the commencement of a new communications era in which the general public as well as other users may transmit and receive radio signals. The entire radio frequency spectrum, with its present and forthcoming developments, is discussed. This covers all frequency bands between very low and super-high, as established by the Federal Communications Commission. Equipment described ranges from 5 kilocycles to beyond 10,000 megacycles. Also included is a thorough description of induction radio and carrier current communication techniques. The field has been expanding rapidly as it emerges from wartime applications to peace-time utilization. It is currently opening up a billion dollar field of business for the radio industry as well as over one hundred thousand new jobs during the next five years in the United States alone, exclusive of foreign market possibilities. This book represents twenty-six years continuous experience in all forms of radio and electronics (1919-1945) as a professional, an amateur, and a Naval Reserve radio specialist officer. During these years the author has been a radio operator, engineer, inventor, author, student, teacher, and consultant of two-way radio facilities. During his twelve years in the United States Naval Reserve, he has advanced in all ranks from Ensign to Commander while specializing in communications and radio-electronics. Between 1942 and 1945 he was in charge of radio-electronics at the United States Submarine Base, New London, Connecticut, followed by a similar assignment at the United...
