By reading this book you are going to take a step back in time and journey to the age of the dinosaurs! The dinosaurs are the some of the most amazing creatures to live on our planet. They existed around 200 million years ago and continued to exist for 165 million years. The human race has only been around for about 60,000 years. This means that the dinosaurs lived on earth 2750 times longer that we have! For reasons unknown the dinosaurs mysteriously disappeared 65 million years ago and became extinct. The only reason we know they exist is because we have found their fossilized remains in the earth. Humans have come across dinosaur fossils throughout history, but it wasn t until the 19th century (1800s) that the study of dinosaurs became a formal scientific study. The first fossil given serious attention as a dinosaur specimen was an Iguanodon* fossil. Since then dinosaur fossils have been discovered all over the world. Right now paleontologists and scientists are doing important digging in China because feathered dinosaurs have been found there, but even the scaly ones are important too. The dinosaurs strange shapes and sizes have sparked the imaginations of countless people. The study of dinosaurs requires depth of imagination, analytical skills, and thought. I hope this book fuels your...
