## Thunder Under the Badlands Thunderstruck Series

By Thomas Lawson Binninger

Paperback. Condition: New. Thomas Lawson Binninger (illustrator). 176 pages. The Western Interior Cretaceous Seaway did not drain off the North American continent as geologists and paleontologists have always assumed. It now resides in what could best be described as a huge geode that is located beneath the Badlands of South Dakota, the formation of which resulted from the whirlpool that sequestered the inland ocean underground. The ecosystem of this environment is sustained by chemosynthesis, the very same process that supports life around the hydrothermal vents at the bottom of the worlds oceans. This sci-fi novel, volume one of the Thunderstruck Series, describes the discovery of the prehistoric world that now exists in this subterranean situation. What was supposed to have only been an unmanned incursion becomes first a rescue mission and then a fight for survival when the top-secret rescue vehicle is badly damaged. The accidental explorers find themselves at risk from not only a host of archaic creatures but also possible exposure to a lethal microorganism that is found to inhabit this domain. Unfortunately, even these terrors pale in comparison to the nightmare they discover living in the one section of the immense cavern they had believed to be...
