As humans, we are a constant work in progress, mistakenly thinking we are finished. But we are never finished. We tend to hide and duck so we don't experience rejection or pain. This is because we are so afraid of something or everything. We don't want to stick our necks out and do the common, uncommonly, because what would happen if we succeed? We would then be held accountable for our success. Most of us don't want that. We want to live but not thrive, survive but really never fully reach the Zenith of our potential. This book will help you realize that you are capable of anything and everything. But you have to chase your dreams in a manner at which you arrive at death on absolute empty, with nothing else left to give. This is the meaning of life, leave it all out on the field and do not look back. Give it all you have, It is your responsibility to do so. We are all walking contradictions, imperfectly perfect and beautifully human. Life is short; break the rules, be your true self, and never back down. Leave this world a better place than it was when you found it. To the Grave on Empty was written as a collection of thoughts and ideas meant to motivate the reader to seize the day and remember that tomorrow is not promised.
