THE MYSTERY OF THE GREAT FLOOD CONFIRMED: THE CATASTROPHIC AFTERMATH OF THE MARSEARTH COLLISION 10 000 YEARS AGO

Outskirts Press. Paperback. Book Condition: New. Paperback. 84 pages. Incredible revelations and perhaps the shortest textbook on the subject of Earth Sciences ever published. The author, with an astonishing simplicity and directness, sweeps aside all that has been written until now about the geological concepts of mountains creation, plate tectonic movements, earthquakes mechanism, fossil fuel formation and fossils dating; his deductions lead to the definitive answer concerning the veracity of the biblical Great Flood, the extinction of the mammoths and big mammals, and ultimately reveals the real cause of the Global Warming phenomena. The anthropogenic greenhouse gases theory, in Dr. Orkans analysis, begins to read like a fable, with Carbon Dioxide and the other so-called greenhouse gases serving as the invisible threads and textile for the emperors new clothes. The books is well supported by extensive scientific documentation, but at the same time can be read as a sensational expose of the self interested prevarication of the Earth Sciences academic community concerning the received wisdom of many, if not most geological processes, including the contemporary and controversial subject of rapid climate change. To engage fully with the contents, the reader requires a grasp of basic scientific principles; otherwise, they may become slightly weary of the concentration that each page demands. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
