Createspace Independent Publishing Platform, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. It is the natural right of every human being to be happy--to escape all the miseries of life. Happiness is the normal condition, as natural as the landscapes and the seasons. It is unnatural to suffer and it is only because of our ignorance that we do suffer. Happiness is the product of wisdom. To attain perfect wisdom, to comprehend fully the purpose of life, to realize completely the relationship of human beings to each other, is to put an end to all suffering, to escape every ill and evil that afflicts us. Perfect wisdom is unshadowed joy. These three things are an ardent desire, an iron will and an alert intelligence. Why are these three qualifications essential to success and what purpose do they serve? Desire is nature s motor power--the propulsive force that pushes everything forward in its evolution. It is desire that stimulates to action. Desire drives the animal into the activities that evolve its physical body and sharpen its intelligence. If it had no desire it would lie inert and perish. But the desire for food, for drink, for association with its kind, impel it to action, and the result is the evolution of strength, skill and intelligence in proportion to the intensity of its desires. To gratify these desires it will accept battle no matter how great may be the odds against it and will unhesitatingly risk life itself in the combat.
