

Ibn Al-Haytham: The Man Who Discovered How We See

By Libby Romero

National Geographic Books, United States, 2016. Paperback. Book Condition: New. 224 x 147 mm. Language: English . Brand New Book. Celebrated in a film featuring Omar Sharif in his final role, meet the scientist known as the Father of Optics, Ibn al-Haytham! During the golden age of science, knowledge, and invention in Muslim civilization -- also known as the Dark Ages in Western Europe -- this incredible scholar discovered how we see and set the stage for the methods we now know as the scientific process. Packed with beautiful and engaging photos, kids will learn all about this fascinating scientist. The Level 3 text provides accessible, yet wide-ranging, information for independent readers. This book is a companion to the international educational campaign, 1001 Inventions and the World of Ibn al-Haytham, that includes interactive exhibits, workshops, live shows, and a 12-minute film starring Omar Sharif in his final film role before his death.

Reviews

Basically no terms to clarify. It is actually written in basic terms rather than confusing. I found out this ebook from my dad and I suggested this book to find out.

-- Elinore Vandervort

If you need to add benefit, a must buy book. I could possibly comprehend every little thing out of this composed e pdf. I am quickly could get a enjoyment of looking at a composed book.
