TEMPERATURE CONTROL USING PID CONTROLLER

LAMBERT

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Recently Temperature measurement and control is a major requirement in most process industries that is, those industries that handle and convert gases, liquids, and bulk solids into products. Chemical, petroleum, petrochemical, polymer, plastic and larger segments of metallurgical and food processing industries, are examples. Chemical reactions, material separation, distillation, drying, evaporation, absorption, crystallization, Baking, extrusion, and thermal therapies are processes that normally occur at controlled temperatures. Typical temperature control loops employ the...
