MOLECULAR MICROBIAL ECOLOGY OF THE SOIL

Book Condition: New. Publisher/Verlag: Springer Netherlands | Results from an FAO/IAEA Co-ordinated Research Programme, 1992-1996 | Grain legume crops, e.g. common bean (*Phaseolus vulgaris* L.), and soyabeans (*Glycine max* L.) are amongst the main sources of protein in Africa, Asia and Latin America. Their high protein content derive from their ability, in symbiosis with *Rhizobium* bacteria, to fix atmospheric nitrogen. Incorporating contributions from molecular biologists, microbiologists, plant breeders and soil scientists, this volume reports the results of an FAO/IAEA Co-ordinated...

Reviews

A fresh eBook with a new perspective. It was actually written quite flawlessly and valuable. Your lifestyle period is going to be converted once you comprehensively read this article eBook.

-- **Elza Ledner**

I just started off looking at this book. It really is really fascinating through reading through period of time. It's been printed in an exceedingly simple way in fact it is just after I finished reading through this publication where it actually modified me, modify the way I really believe.

-- **Prof. Trevor Hill Jr.**

Definitely one of the best eBooks I have possibly studied. I have read and that I am confident that I will plan to read through once again once more in the foreseeable future. You can expect to like how the article writer wrote this publication.
