THE BRIDGE OVER THE BERING STRAIT

Createspace, United States, 2010. Paperback. Book Condition: New. 202 x 134 mm. Language: English . Brand New Book ***** Print on Demand *****.Whether the reader is a Sci-Fi lover or a fiction devotee, *The Bridge Over the Bering Strait* by James Cotter is as imaginative as it is electrifying. Set in 2032, Cotter introduces an international team of engineers assembled to do what has never been achieved: tunnel under the Bering Sea and create a bridge between Siberia and Alaska, thereby linking Asia and the Americas for travel and trade. The key players driving this project-Ford and Darwi Walker, and their son Arivata, along with Sam Takahashi and Zoia Roskova-soon discover that they are part of something reaching far beyond structural engineering: this project threatens their personal lives, their reputations, and much more. Weaving together tribal customs and lore, political intimidation between the White House and the Kremlin, and then a disaster that ultimately leads to war, Cotter creates a story that pulls readers into its vortex and keeps us on edge to the final page.
