REMOTE SENSING URBAN EXPANSION, LANDSCAPE CONFIGURATION AND COMPOSITION

Remote sensing urban expansion, landscape configuration and composition

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | There have been many textbooks on the topic of urban remote sensing applications, most with a general coverage of the key remote sensing data and characteristics, methods and techniques and spatial data and information extraction for spatial and temporal variability patterns of urban expansion and landscape configurations. It is through such an understanding that current models, methods and techniques in urban planning are incapable of addressing the structural complexity in urban landscapes...
