Hardcover Pages Number: 874 Language: Simplified Chinese Publisher: East China University of Technology Press; 1st edition (November 1. 2007). Transfer process and separation process principles (includes unit operations) (Vol.2) momentum transfer. heat transfer. mass transfer process. based on the background of unit operations in chemical industry and other process industries. describes the operation of each unit process principles. calculation methods and basic equipment. The book is divided into two. On the book include: engineering principles and units Introduction to the principle of momentum transfer and the total balance. momentum transfer theory and applications. given the basic principles of state heat transfer. the non-state heat transfer process in principle. the mass transfer process of the principle of non-steady state convective mass transfer principles; the specific content related to fluid flow. the flow resistance calculation. flow meters. fluid transport machinery. mixing. heat transfer. radiation heat transfer. cooling and freezing of biological products. the boundary layer flow and heat transfer. diffusion and convective mass transfer and so on. The volume includes: evaporation. process materials. dry. level and continuous gas-liquid separation process. the vapor-liquid separation processes. liquid - liquid and flow-solid separation processes. membrane separation process. the physical - mechanical separation process; the specific content involved Solid dry disinfection of food. absorption. distillation. adsorption. ion exchange. liquid - liquid extraction. liquid-solid leaching. crystallization. membrane permeation. reverse osmosis. ultrafiltration. microfiltration. filtration. sedimentation and deposition. mechanical crushing . Transfer process and separation process principles (includes unit operations) (Vol.2) can be used as the engineering colleges of chemical and related professional teachers and students of teaching reference books are also available for the scientific and technical personnel engaged in chemical and other process industries. design reference and...
