LESSONS IN TEACHING NUMBER AND PLACE VALUE IN PRIMARY SCHOOLS (PAPERBACK)**DOWNLOAD**

Sage Publications Ltd, United Kingdom, 2014. Paperback. Condition: New. Language: English . Brand New Book. Lesson planning in line with the new Primary National Curriculum! Structured around the number and place value sections of the programmes of study within the National Curriculum (DfE, 2013), this book provides practical examples and lesson ideas on how number and place value can be taught within the primary classroom. Children need an in-depth understanding of our number system in order to access effectively other elements of the number curriculum; this is an area of maths that is a high focus throughout the primary curriculum. The accompanying commentary before and after each lesson plan, informs some of the decisions that you will make as part of the planning process. Potential challenges associated with the lesson, including common errors and misconceptions children encounter are also discussed. The authors recognise that each class is unique and so you will find suggestions after each lesson on how it can be adapted and developed to suit your teaching needs. Did you know that this book is part of the Lessons in Teaching series? Table of Contents Teaching the national curriculum for mathematics / Teaching number and place value / Planning: telling the `story of the lesson / Year 1: One more than, one less than / year 2: Place value / Year 2: Using and = signs / Year 3: Patterns when counting in multiples / Year 4: Negative numbers / Year 4: Roman Numerals / Year 5: Big numbers / Year 6: Understanding decimals / Year 6: Reading scales / Moving on / Glossary of terms / Models, images and practical resources WHAT IS THE LESSONS IN TEACHING SERIES? Suitable for any teacher at any stage of their career, the books in this series are packed with great...
