In *The Mechanics of Awakening*, Gary Sherman takes us on a journey beyond ordinary perception to the field of energy and awareness beyond the mind and body, a place within each of us where we discover the essence of ourselves and learn about our self from ourselves so that we can consciously create the life we wish to experience. With a clarity that is rare, the author distills three primary skills we can use to open the self and its mechanics to self-observation and expanded self-awareness. He provides playful, simple yet profound practices for learning how to utilize these skills within our daily life so that we gain access to our inner life, our thoughts, feelings, beliefs and intuitive promptings, as well as entrance into the larger states of consciousness that support our being.
