ROWMAN LITTLEFIELD, United States, 2007. Paperback. Condition: New. Language: English . Brand New Book. As the debt of the U.S. government approaches \$9 trillion, we must ask ourselves what sort of economic example is being set for our students. If this debt will be passed on to our current generation of students, what, then, should children and teenagers know about personal finance? How can sound financial principles and money management be taught to these students? Extreme Economics: The Need for Personal Finance in the School Curriculum identifies, through current research, what children and teenagers need to know about managing funds. It shows educators how to design instructional activities that enable students to learn about money management in fascinating and meaningful ways. Extreme Economics is not filled with complicated or confusing charts, graphs, and terminology. It is readable and immediately applicable. As education continues to advance, the school curriculum might consist of reading, writing, math, and economics and finance. This book is an important step to ensuring a solid base in this emerging area.
