Lynne Rienner Publishers Inc, United States, 2011. Paperback. Condition: New. 3rd Revised edition. Language: English . Brand New Book. Avoiding the problems of both overgeneralization and a strictly country-by-country approach, *Comparative Politics of the Third World* offers an innovative blend of theory and empirical material that introduces students in a meaningful way to the developing (or not developing) world. December Green and Laura Luehrmann consistently link concepts pertaining to history, politics, economics, and international relations to a set of eight timely case studies: China, Indonesia, Iran, Mexico, Nigeria, Peru, Turkey, and Zimbabwe. Their approach, an accessible and even compelling narrative, is directed specifically at today s undergraduates. Among the many outstanding features of this new edition: \*Addresses the sticky issue of terminology, confronting head on the implications of such phrases as third world, global south, and developing world. \*Effectively uses case studies-each one updated from beginning to end-to make sense of theory. \*Incorporates the most recent political and economic data available. \*Highlights the effects of the global economic recession and progress toward the Millennium Development Goals. \*Discusses a range of new hot topics, such as the role of information technologies, that highlight interdependence. \*Includes a detailed discussion of current US policy in Iraq and Afghanistan and of the perceived Obama Effect. The result is a text that has been successfully designed to challenge students preconceptions, arouse their curiosity, and foster critical thinking.
