Nova Science Publishers Inc, United States, 2005. Hardback. Book Condition: New. New ed.. 260 x 184 mm. Language: English . Brand New Book. In an age of so-called Conflict of Civilisations, Turkey s endeavours in becoming a neo-liberal country, would not only liberate itself from the restrictive parameters of a national security state, which it was during the Cold War; but it would also pose a model to the Islamic world torn with Al Qaeda terror as an exemplary edifice of how a pro-western moderately Muslim country could survive both as a secular and democratic state. This book is concerned with Turkey s identity crisis in the post-modern era. Caught between the security considerations which were dictated by the country s geo-strategic location, Turkey, since the 1980s has been struggling to join the European Union as a means of integrating itself into the world of freedoms, human rights and pluralist democracy. This book adopts a thematic approach to Turkey s struggle in becoming part of Global Society.
