Passionate Retirees, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Are you finding that your relationship is mundane and boring? Has the spark of sexuality disappeared? Have you bought into the idea that it's too late? In this book, the authors reveal the reasons why many of the over 50s experience failed relationships with an increasing divorce rate in recent years. Statistically, second and third marriages are even less successful. While any one of many endeavors in life requires training programs, the authors point out that people don't require any such training for one of the most important aspects of our lives; our relationships. Topics presented include the four pillars of successful relationships, the importance of understanding and identifying values, and there is an exploration of everything from online dating to retirement villages where sex is well and truly regular fare. The book is interspersed with vignettes that tell of the challenges that many couples experience in their relationships. Also, the authors give you practical and medical tips to enhance your sexual experience at any age. The good news is that if you apply the advice in this book, not only will your relationship improve, but if you are on the lookout for a new one, you can go into it with greater...
