University of Washington Press. Hardback. Book Condition: new. BRAND NEW, The Bible in Middle English Literature, David C. Fowler, In this companion to his previous book, *The Bible in Early English Literature*, David Fowler completes his stimulating and broad-ranging study of medieval English literature in the light of biblical tradition. As in the first volume, he both provides a broad general view of literary trends and closely examines representative works that illustrate these trends. The author begins by discussing medieval drama in England--with special attention to the Cornish drama-- as revealed in the cycle plays that enacted the entire history of the world from Creation to Doomsday. The final three chapters focus on particular literary works which the author believes to be outstanding examples of poems composed in the biblical tradition. "The Parliament of Fowls" is selected as the best example of biblical influence in all of Chaucer. The work is seen as a Creation poem with its organizing principles deriving from commentaries on the first chapter of Genesis--a new theory of the poem's structure which the author feels resolves many of the difficulties previously encountered...
